

```
1 package ticTacToe.model.score;
2
3 public class SimpleScoreModel implements ReadOnlyScoreModel, ScoreModel{
4
5     private int scoreX = 0;
6     private int scoreO = 0;
7
8     @Override
9     public void incScoreX() {
10         scoreX++;
11     }
12
13     @Override
14     public void incScoreO() {
15         scoreO++;
16     }
17
18     @Override
19     public void reset() {
20         scoreX = scoreO = 0;
21     }
22
23     @Override
24     public int scoreX() {
25         return scoreX;
26     }
27
28     @Override
29     public int scoreO() {
30         return scoreO;
31     }
32
33 }
34
```
